

Town of  
*North Stonington, Connecticut*

November, 2011

Elaine M Boissevain, Trustee  
126 Pendleton Hill Road  
North Stonington, Connecticut 06359

Re: Anna Farm Road

The Town is writing for your opinion on a request it has received from your neighbors, Nelson and Denise Aldrich. The Aldrichs have requested that the discontinued northern portion (approximately 2500 feet) be improved and allowed to be reopened to thru traffic.

This section of Anna Farm Road has not been maintained by the Town of North Stonington for many years. This improvement would give Anna Farm Road residents access to Preston, at Route 165, but could also increase traffic flow, additional maintenance, and require the Town to maintain the additional section (see map).

The Selectmen want to get opinions and comments of the residents and land owners on the Anna Farm Road East and then will hold a hearing during one of the future Selectmen's meetings for public input on the request and the pros and cons for road residents will be identified prior to making a final decision on the request.

Respectfully,

*Nicholas H. Mullane II*

*If they don't pay*

Comments

*The Aldrichs should pay for the improvement NOT the town. Any improvement will most likely include potential for subdivision.*

Comments

*The town cannot afford an increase in maintenance costs in this economy. Anna farm Rd E is often neglected, has no drainage and at times would be difficult for emergency crews to pass through.*

The road is a "one way" <sup>(lane)</sup> to busses, oil trucks & other delivery vehicles. Plows have gotten stuck in the winter. This would not be a good idea for the town to incur such an expense.

Additional traffic on Annafarm Rd East would cause a larger burden on current residents. The road would need drainage & to be widened to allow for 2 lanes.

Currently residents have to wait for the bus to come in the morning prior to being able to ~~get~~ exit the road. We often pull into neighbors' driveways. When the town had vehicles trimming trees, the road was completely impassable during this work.

Last winter, we had a potential fire threat where the fire chief drove his pickup truck to us instead of attempting to drive a fire truck up here.

More people, more traffic, more safety risk that the town cannot afford.

Comments Anna Farm Road East cannot handle any

more cars in the current condition it is in.  
It will also increase the speed of cars because it  
is open. PLEASE NOTIFY WHEN THERE IS A MEETING!! Thanks
